This facility has been modified in the Resource Conservation and Recovery Information System (RCRIS) to a Small Quantity Generator (SQG). This modification to RCRIS was done February 20, 1996 per the instruction of the State of Texas (TNRCC). The SQG modification was based on responses TNRCC received to letters regarding their annual report. Due to the response received from this company, they have been coded as a SQG. All supporting documentation can be found in TNRCC's central records.

Re: J.I. Case Co. dba Case Power
EPA Identification No. TXD98 151 3880

Dear Sir or Madam:

Pursuant to instructions received from U.S. EPA Region 6 last month, I am writing to request the transfer of the EPA Identification Number referenced above.

The above-referenced Identification Number is presently held by J.I. Case Co. dba Case Power, 5935 Griggs Road, Houston, Texas for its facility in Houston, Texas.

On June 23, 1994, this facility was transferred to Case Equipment Corporation, which changed its name to Case Corporation on July 1, 1994. The facility's transfer did not result in any change in the operations at the facility or in the personnel involved in performing such operations. At this time, I am requesting that the Identification Number be issued to "Case Corporation dba Case Power & Equipment."

WASTE MINIMIZATION INFORMATION

Dear Mr. Clark:

Our hazardous wastes are limited to cleaning solutions for service shop use which are recycled by our supplier Safety-Kleen. The toxicity and volume levels remain constant from year to year.

There has been no change in volume or toxicity of wastes during the past years as we utilize a fixed number of cleaning stations.

Waste Minimization Information

Dear Mr. Clark:

Our hazardous wastes are limited to cleaning solutions for service shop use which are recycled by our supplier Safety-Kleen. The toxicity of these wastes remain constant from year to year.

The volume of wastes generated decreased by 3,120 lbs. to 960 lbs. at this location due to a consolidation of our service operations. This facility no longer generates any hazardous wastes.

XVI. WASTE MINIMIZATION (narrative description)

OUR Facility only generates a small quantity of Hazardous wastes. The wastes generated are all wastes from engine and hydraulic repairs etc and cleaning fluids. Volume reductions could only be accomplished by reduction in general business activity.

Our volume of hazardous wastes has declined but such decline has only occurred due to the general decline of business in the Houston TX Area.
